## EDUCATION

### PhD | *Mathematics*

State University of New York at Binghamton

Jan 2021 – Expected 2026  
New York, USA

### Master of Science | *Major: Mathematics, Minor: Physics*

IISER Thiruvananthapuram

Aug 2017 – May 2020  
Kerala, India

### Bachelor of Science

IISER Thiruvananthapuram

Aug 2015 – August 2017  
Kerala, India

## PUBLICATIONS AND RESEARCH

- Infinitude of Primes, Mathematics Student, Indian Mathematical Society Vol. 94 Part 3-4 (2025)
- Locally LIP Functions (In preparation)

## TOPICS OF INTEREST

My primary research interest lies in Algebraic Number Theory and Algebraic Geometry. Lately, I have been developing a theory of Locally Integer Polynomial Functions with my advisor, Prof. Alexander Borisov, which deals with integer-valued functions on a Dedekind Domain  $R$  that "locally" look like a polynomial with coefficients in  $R$ .

I also like finite and finitely generated Group Theory, Commutative Algebra, and I also like to think about the mechanics of the Universe (General Relativity).

## CONFERENCES

### Institute of Mathematical Sciences(IMSc) Summer Research Fellowship Program

Chennai, India

May 2017

### Annual Foundation School(AFS) Mathematics Workshop

IISER Pune, India

June 2018

### Binghamton University Graduate Combinatorics, Algebra, and Topology Conference

(BUGCAT)Binghamton University, NY

November 2024

### BUGCAT 2025

Binghamton University

November 2025

### 51st Annual New York State Regional Graduate Mathematics Conference

Syracuse University, NY

March 2026

## TALKS GIVEN

---

|                                                                                                                                                         |               |
|---------------------------------------------------------------------------------------------------------------------------------------------------------|---------------|
| <b>The Arithmetic Seminar, Binghamton University</b><br>Title: Nilpotent and Geometrically Nilpotent Subvarieties                                       | Spring 2023   |
| <b>The Algebra Seminar, Binghamton University</b><br>Title: Wreath Product of Groups and Indicatrix Polynomial of a Group Action                        | Fall 2023     |
| <b>The Arithmetic Seminar, Binghamton University</b><br>Title: Hilbert's Irreducibility Theorem                                                         | Spring 2024   |
| <b>The Arithmetic Seminar, Binghamton University</b><br>Title: Kirch and Golomb Topology on $\mathbb{N}$ and Locally Integer Polynomials                | Fall 2024     |
| <b>Binghamton University Graduate Combinatorics, Algebra, and Topology Conference</b><br>Title: An Introduction to Locally Integer Polynomial Functions | November 2025 |
| <b>Annual New York State Regional Graduate Mathematics Conference, Syracuse</b><br>Title: Locally Integer Polynomial Functions                          | March 2026    |

## HONORS AND AWARDS

---

|                                                                                                                                                                                |           |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|
| <b>INSPIRE (Innovation in Science Pursuit for Inspired Research) Fellow</b><br>A prestigious fellowship sponsored by the Department of Science and Technology, Govt. of India. | 2015-2020 |
| <b>Secured All India Rank 18 in Mathematics CSIR-UGC NET Examination</b><br>A national eligibility test for lifelong lectureship by CSIR.                                      | 2018      |

## TEACHING EXPERIENCE

---

|                                                                 |                       |
|-----------------------------------------------------------------|-----------------------|
| <b>Elementary Statistics</b><br>Binghamton University, New York | Spring 2021           |
| <b>Calculus 1</b><br>Binghamton University, New York            | Fall 2021 - Fall 2022 |
| <b>Calculus 2</b><br>Binghamton University                      | Spring 2023 - Present |

## SKILLS

---

**Languages:** English, Malayalam (Native), Hindi, Tamil  
**Programming:** Basic C++, MATLAB, Mathematica  
**Document Creation:** Microsoft Office Suite, LaTeX
